Comparative Racial

Politics in Latin America explores the dynamic interplay between racial politics and hegemonic power in the region. It investigates the fluid intersection of social power and racial politics and their impact on the region's histories, politics, identities and cultures. Organized thematically with in-depth country case studies and a historical overview of Afro-Latin politics, the volume provides a range of perspectives

on Black politics and cutting-edge analyses of Afro-descendant peoples in the region. Regional coverage includes Argentina, Brazil, Colombia, Cuba, the Dominican Republic, Ecuador, Haiti and more. Topics discussed include Afro-Civil Society; antidiscrimination criminal law; legal sanctions; racial identity; racial inequality and labor markets; recent Black electoral participation; Black feminism thought and

praxis; comparative Afro-women social movements; the intersection of gender, race and class, immigration and migration; and citizenship and the struggle for human rights. Recognized experts in different disciplinary fields address the depth and complexity of these issues. A Tale
One of the most scholarly examinations of the

heritage of European rulers. The implications are enormous involving a lineage traced back to Odin, whose lineage then merged with the bloodline of Jesus Christ himself. This is a subject whose time has come, with a well-researched book that goes far beyond mere speculation.
