Teacher's Resource Guide  
Jessica Kingsley Publishers  
From the Preface: This manual, *Child Protective Services: A Guide for Caseworkers*, examines the roles and responsibilities of child protective services (CPS) workers, who are at the forefront of every community's child protection efforts. The manual describes the basic stages of the CPS process and the steps necessary to accomplish each stage: intake, initial assessment or investigation, family assessment, case planning, service provision, evaluation of family progress, and case closure. Best practices and critical issues in casework practice

are underscored throughout. The primary audience for this manual includes CPS caseworkers, supervisors, and administrators. State and local CPS agency trainers may use the manual for preservice or inservice training of CPS caseworkers, while schools of social work may add it to class reading lists to orient students to the field of child protection. In addition, other professionals and concerned community members may consult the manual for a greater understanding of the child protection process. This manual builds on the information presented in *A Coordinated Response to Child Abuse and Neglect: The Foundation for Practice*. Readers are encouraged to begin with that manual as it addresses important information on which CPS practice is based including definitions of child maltreatment, risk factors, consequences, and the Federal and State basis for intervention. Some manuals in the series also may be of interest in understanding the roles of other professional groups in responding to child abuse and neglect, including: Substance abuse treatment providers; Domestic violence victim advocates; Educators; Law enforcement personnel. Other manuals address special issues, such as building partnerships and working with the courts on CPS cases. *A Grade-By-Grade Resource Guide for Parents and Teachers Delta* Designed for students of all ages, *Exploring Catholic Literature: A Companion and Resource Guide* provides an engaging and succinct introduction to twelve recognized masterpieces of Catholic literature, from Augustine's 4th century conversion narrative, *The Confessions*, to the recent poetry of Denise Levertov collected in *The Stream* and *the Sapphire*. Each chapter

The Cesarean Rate is finally dropping in the United States, primarily because women who have had this operation are saying no to a repeat cesarean. They are doing so because vaginal birth after cesarean, or VBAC, is generally safer than the alternative. For most women, though, VBAC is still a scary prospect. In *The VBAC Companion*, Diana Korte explains the risks and benefits of both VBACs and repeat cesareans. She tells how to work on overcoming fears about labor, how to find a VBAC-friendly doctor (or midwife) and hospital (or birth center), and how to get extra support, from a labor assistant, childbirth educator, or VBAC support group. Korte also describes pain-relieving techniques for labor, and routine hospital procedures to avoid. Throughout the book are VBAC success stories, told in the mothers' own words, for inspiration on the path to a safe and joyful birth.

**How to Explain a Diagnosis to a Child** is a resource to guide parents and professionals through what can be a very sensitive process. This step-by-step guide includes templates and worksheets that can be tailored to meet the individual needs of the child and their families embrace who they are, regardless of a diagnosis. This may include Autism Spectrum Disorders (ASD), Learning Disabilities (LDs), Attention Deficit Hyperactive Disorder (ADHD), Dyslexia, Cerebral Palsy, etc. This guide may help answer those difficult questions regarding: - Why parents decide to tell? - Why parents may not tell? - When to tell? - Who should tell? - What information to share? - How do I explain? Sessions include various topics such as celebrating differences, reviewing strengths and challenges, identifying learning style, understanding relationships, addressing questions about a diagnosis and others. This guide may help to build a child's confidence and empower them to advocate

for themselves.

The invaluable grade-by-grade guide (kindergarten—sixth) is designed to help parents and teachers select some of the best books for children. Books to Build On recommends: • for kindergartners, lively collections of poetry and stories, such as *The Children's Aesop*, and imaginative alphabet books such as Bill Martin, Jr.'s *Chicka Chicka Boom Boom* and Lucy Micklewait's *I Spy: An Alphabet in Art* • for first

graders, fine books on the fine arts, such as Ann Hayes's *Meet the Orchestra*, the hands-on guide *My First Music Book*, and the thought-provoking *Come Look with Me* series of art books for children • for second graders, books that open doors to world cultures and history, such as Leonard Everett Fisher's *The Great Wall of China* and Marcia Willaims's humorous *Greek Myths for Young Children* • for third graders, books that bring to life the wonders of ancient Rome, such as *Living in Ancient Rome*, and fascinating books about astronomy, such as Seymour Simon's *Our Solar System* • for fourth graders, engaging books on history, including Jean Fritz's *Shh! We're Writing the Constitution*, and many books on Africa, including the stunningly illustrated story of Sundiata: Lion King of Mali • for fifth graders, a version of Shakespeare's *A Midsummer Night's Dream* that retains much of the original language but condenses the play for reading or performance by young students, and Michael McCurdy's *Escape from Slavery: The Boyhood of Frederick Douglass* • for sixth graders, an eloquent retelling of the *Iliad* and the *Odyssey*, and the well-written American history series, *A History of US* . . . and many, many more!

America's favorite doctors Michael Roizen and Mehmet Oz cover pregnancy from conception to birth. Few life experiences feature emotional swings as extreme as those of pregnancy—it's a monumental mix of both intense excitement and skip-a-beat anxiety. How do you respond to such a situation? If you're like most, you scour websites, read books, browse blogs, and pick the brains of every friend, family member, and store clerk who's ever had a baby. You talk about the ups and downs, the cravings and the nausea, the maternity clothes and the stretch marks. During

this 280-day journey, this sometimes scattered mind-set is perfectly natural—and healthy. But often you need help cutting through the clutter. In *YOU: Having a Baby*, Dr. Mehmet Oz and Dr. Michael Roizen, *America's Doctors*, will help ease your tension by teaching you not only about what you can do but also why you should do it. They'll explore the biology of your body with amazing insights about a cutting-edge new field called epigenetics, which gives you the power to change the genetic destiny of your child. And they'll give you all the ins and outs of nutrition, exercise, hormones, fetal development, and many more pregnancy-related issues. Using their signature wit and wisdom, they'll test your knowledge, bust many myths, and reassure you that your maternal instincts are usually pretty darn good. After all, the doctors want the exact same thing as you do during this journey—a healthy baby (and a healthy mom). Be assured that *YOU: Having a Baby* will be one of your favorite passengers on this wonderful ride.
