This book was designed to introduce Arabic Alphabet to learners of All ages. The book is in two parts: The Student's Book and the Activity Book. The Student's Book includes the basic lessons with supportive exercises and wordlists. The Activity Book includes the reading and writing activities which reinforce the material covered in the Student's Book. The objective of dividing this work into two books is to make it easier for learners, especially the young ones. To cover all alphabet items and provide sufficient and variant exercises is somehow unachievable within one book as it will become bulky; heavy to carry and handle. The work is

divided in a way that it can be used in Arab countries or international schools easily and practically. The Student's Book can be used to learn how to read while acquiring new vocabulary items. The Activity Book is to practice writing and reinforce the vocabulary items through various quizzes and exercises. Every word in the book is illustrated with an image to link the visual memory (the identified) to the written form of the word (The identifier). Each chapter is entailed with a word list that includes all the words in the chapter. The words are presented in three aspects: - Arabic - English - Image Although the book is illustrated in a way that it looks like a children's book, it can be practically used by adult learners to learn the alphabet, how to read and build up their vocabulary. The book is originally aimed to introduce Arabic Alphabet to speakers of other languages. However, because it uses English as the main medium to introduce Arabic, the book can be used to increase the English vocabulary of Arab children who are using the book to learn Arabic. Therefore, the book can be used by primary schools in non-Arabic speaking countries or international schools in Arab countries to teach early years pupils. The Student's Book includes 8 chapters. Each of these chapters includes the following sections: 1. Letters and Words 2. Reading exercises 3. Wordlist with images The Activity Book includes relevant chapters to the lessons in the Student's Book. Each chapter includes: - Reading exercises - Quizzes - Colouring activities - Writing activities The parent or teacher can start with the Student's Book and move to the Activity Book whenever they think that the learner is ready to explore and do more exercises.

Dear Parents , The language is a basic characteristic which constitutes one's own representation of who you are. The Urdu alphabet also known as Shahmukhi, is the right-to-left alphabet used for the Urdu language. It is a modification of the Persian alphabet, which is itself a derivative of the Arabic alphabet. The Urdu alphabet has up to 39 or 40 distinct letters with no distinct letter cases and is typically written in the calligraphic Nasta'liq script, whereas Arabic is more commonly written in the Naskh style. Some children may feel that using English as a common language, it won't matter whether they learn Urdu or not. It happens that your child might just stop speaking Urdu leading to identity change.
