"Motion" STUDY. Flashcards. Learn. Write. Spell. Test. PLAY. Match. Gravity. Created by. treytonhoogland. Chapter 11 Notes "Motion" Terms in this set (16) motion. the change in position of an object when compared to a frame of reference. frame of reference. usually a stationary object, needed to describe motion.

Chapter 12 Forces and Motion

WordWise

Chapter 11 Motion Section 11.1

Distance and Displacement (pages 328 – 331) This section defines distance and displacement. It presents methods of describing motion and introduces vector addition and subtraction. Reading Strategy (page 328) Predicting Write a definition for frame of reference in your own words in the left column of the table.

Free Physical Science Flashcards about Chapter 11 - Motion

Chapter 11 Motion Section 11.3

Acceleration (pages 342 – 348) This section describes the relationships among speed, velocity, and acceleration. It discusses examples of these concepts. It also shows sample calculations of acceleration and graphs representing accelerated motion.

Reading Strategy (page 342)

Summarizing Read the section on acceleration. Then complete the concept
