Charter of the United Nations and Statute of the International Court of Justice Charter of the United Nations Yale University Press

International Law and the Use of Force Routledge

Identifies the major weaknesses in the current United Nations system and proposes fundamental reforms to address each. This title is also available as Open Access.

Oppenheim's International Law: United Nations Routledge

The a eoconstitutionalizationa of international law is one of the most intensely debated issues in contemporary international legal doctrine. The term is used to describe a number of features which distinguish the present international legal order from a oeclassicala international law, in particular its shift from bilateralism to community interest, and from an inter-state system to a global legal order committed to the well-being of the individual person. The author of this book belongs to the leading participants of the constitutionalization debate. He argues that there indeed exists a constitutional law of the international community that is built on and around the Charter of the United Nations. In this book, he explains why the Charter has a constitutional quality and what legal consequences arise from that characterization.

The Universal Declaration of Human Rights BRILL

In *Petulant and Contrary: Approaches by the Permanent Five Members of the UN Security Council to the Concept of 'threat to the peace' under Article 39 of the UN Charter* Tamsin Phillipa Paige conducts a critical discourse analysis of UN Security Council meetings in relations to 'threat to the peace'. She then synthesises these case studies to demonstrate how each member of the P5 defines the phrase.

United Nations Charter Cambridge University Press

It is generally considered that the UN Security Council has been galvanised since the end of the Cold War. However, the existence and development of armed conflicts remain the reality in the international scene. Is the upsurge in instances of invoking Chapter VII of the UN Charter truly a sign of the invigoration of the Security Council's authority or mere evidence of its failure to prevent the aggravation of

armed conflicts? To what extent is the Security Council authorised to exercise the peacekeeping power in order to take a more flexible approach to conflict management from an earlier stage of conflict? This book explores the potential of the UN peacekeeping power, placing Article 40 of the UN Charter at the centre of the legal regime governing peacekeeping measures. It traces the origins of peacekeeping measures primarily in the experience of the League of Nations and identifies Article 40 of the Charter as the primary legal basis for, and the legal restraints upon, the exercise of the peacekeeping power. It examines the regulatory framework within which the United Nations, particularly the Security Council, is authorised and may even be required to direct peacekeeping measures to prevent the aggravation of armed conflicts. It suggests that the legal accountability of the Security Council in directing peacekeeping measures will be enhanced by utilising procedural mechanisms for self-regulation

Admission to the United Nations BRILL

A text in the Yale University Press Series on Basic Documents in World Politics This volume contains the full text of the United Nations Charter and the Statute of the International Court of Justice, as well as related historical documents. They are accompanied by ten original essays on the Charter and its legacy by distinguished scholars and former high-level UN officials. The commentaries illuminate the early and ongoing roles of the United Nations in responding to international crises, debates about the UN's architecture and its reform, and its role in global governance, climate change, peacekeeping, and development. A concise and accessible introduction to the UN for students, this collection also offers important new scholarship that will be of interest to experts.

Repertory of Practice of United Nations Organs UN

This is an account of a critical period in international diplomacy. It is the story of the effort between 1940 and 1945 to fashion a world organization to keep the future peace. The book deals with the Atlantic Charter and the conferences at Moscow, Cairo, Teheran, Dumbarton Oaks and San Francisco that finally led to the United Nations Charter. It shows how the strategic decisions leading to military victory simultaneously helped to determine the conditions of postwar settlement, and its foreshadows some of the frustrations and conflicts of the decade that followed.

The Essential Un Oxford University Press

Relating the transformation of the UN from wartime alliance to universal organization, this book tells how a presumption came to be entrenched in the UN Charter that any State seeking admission will be admitted and then considers the implications.

International Trusteeship System Yale University Press

The Charter is of seminal importance to understand the U.N. and its agencies. It is a bold step towards making the world a family of Nations, an attempt to ensure that wars do not scourge the world, an endeavour to make this world peaceful, cooperative and worth living. The book gives in brief the historical background of the U.N. Charter. It also presents how the Court is constituted and

functions. The text introduces to the readers those distinguished Indians who sat as judges in the Court. In its present form, the text is useful to students of Political Science, International Organisation and of Law. It will be of great help to all candidates appearing for Civil Service examinations conducted by U.P.S.C. and State Public Service Commissions.

International Law on Peacekeeping OUP Oxford

Since the second edition of this commentary on the Charter of the United Nations was published, the text of the Charter may not have changed but the world has. The wars in Iraq and Afghanistan have had a lasting impact on international law and the Commentary has been fully updated to take their impact into account. The new edition has been completely revised and features a completely new chapter on UN reform, analyzing the effect of reforms which have already been implemented and examining why other proposals for reform have failed. It will assess how these proposals could be improved, with a particular focus on the Security Council. This new edition also includes coverage of the creation of the Human Rights Council and the impact of the Responsibility to Protect doctrine. This is the authoritative, article-by-article account of the legislative history, interpretation, and practical application of each and every Charter provision. Written by a team of distinguished scholars and practitioners, this book combines academic research with the insights of practice, and is an indispensable work of reference for all those interested in the UN. The Commentary will be crucial in providing new directions for the development of international law and the United Nations in the twenty-first century.

The Charter of the United Nations The Lawbook Exchange, Ltd.

When the United Nations Charter was adopted in 1945, states established a legal 'paradigm' for regulating the recourse to armed force. In the years since then, however, significant developments have challenged the paradigm's validity, causing a 'pardigmatic shift'. *International Law and the Use of Force* traces this shift and explores its implications for contemporary international law and practice.

Charter of the United Nations Section of International Law

The role of the United Nations in collective security has been evolving since its inception in 1945. This book explores collective security as practiced within the legal framework provided by the United Nations Charter, with a particular focus upon activity undertaken under the auspices of the UN Security Council, the body conferred by the Charter with the primary responsibility for the maintenance of international peace and security. Although the book is primarily grounded in international law, where appropriate it also draws upon relevant political insights in order to present a clear picture of the UN collective security system in operation and the factors which impact upon the way in which it functions. Offering a comprehensive analysis it considers the full range of measures which can be utilised by the UN in the performance of its collective security remit including military enforcement action, peacekeeping, non-military sanctions and diplomacy. The book considers each of these measures in detail, assessing the legal framework applicable to the form of action, the main legal controversies which arise in respect of their appropriate utilisation, and the UN's use of this collective security 'tool' in practice. The book draws conclusions about the main strengths and shortcomings of the various means through which the UN can attempt

to prevent, minimise or end conflict.

Constitution of the United Nations Charter of the United Nations and Statute of the International Court of Justice Charter of the United Nations

This volume discusses the legal limits to the authority of the Security Council under Chapter VII of the United Nations Charter. The interest in this topic regained importance when the Security Council started to play an increasingly active role after a period of dormancy between 1945 and 1990. The work describes various approaches to Charter interpretation, provides an overview of the Council's powers under the Charter and surveys the Council's recent practice with regard to the maintenance of international peace and security. Subsequently the sources and contents of the limits to the Council's authority are analyzed. This is followed by an analysis of the role of the International Court of Justice, which includes an overview of the main obstacles to, and possibilities of, judicial review by the Court of Council decisions taken under Chapter VII. Finally, the work discusses recent proposals to enhance the Council's legitimacy.

A History of the United Nations Charter PHI Learning Pvt. Ltd.

The Europa Directory of International Organizations 2021 serves as an unequalled one-volume guide to the contemporary international system. Within a clear, unique framework the recent activities of all major international organizations are described in detail. Given alongside extensive background information the reader is able to assess the role and evolving functions of these organizations in today's world. Highlights in this edition include: - a fully revised Who's Who section with biographical details of the key players in the international system. - the response of the international community to crises and conflicts throughout the world. - specially-commissioned introductory essays cover topics including global environmental governance, transboundary water management, and multilateral governance and global action on health.

The Charter of the United Nations and Its Covenant of the League of Nations Martinus Nijhoff Publishers

As the world's only truly universal global organization, the United Nations has become the foremost forum to address issues that transcend national boundaries and cannot be resolved by any one country acting alone. This authoritative reference provides a comprehensive introduction and overview of the work of the UN in key areas of international peace and security, economic and social development, human rights, and humanitarian action.

Charter of the United Nations

The United Nations, whose specialized agencies were the subject of an Appendix to the 1958 edition of Oppenheim's *International Law: Peace*, has expanded beyond all recognition since its founding in 1945. This volume represents a study that is entirely new, but prepared in the way that has become so familiar over succeeding editions of Oppenheim. An authoritative and comprehensive study of the United Nations' legal practice, this volume covers the formal structures of the UN as it has expanded over the years, and all that this complex organization does. All substantive issues are addressed in separate sections, including among others, the responsibilities of the UN, financing, immunities, human rights, preventing armed conflicts and peacekeeping, and judicial matters. In examining the evolving structures and ever expanding work of the United Nations, this volume follows the long-held tradition of Oppenheim by presenting facts uncoloured by personal opinion, in a succinct text that also offers in the footnotes a wealth of information and ideas to be explored. It is a book that, while making all necessary reference to the Charter, the Statute of the International Court of Justice, and other legal instruments, tells of the

realities of the legal issues as they arise in the day to day practice of the United Nations. Missions to the UN, Ministries of Foreign Affairs, practitioners of international law, academics, and students will all find this book to be vital in their understanding of the workings of the legal practice of the UN. Research for this publication was made possible by The Balzan Prize, which was awarded to Rosalyn Higgins in 2007 by the International Balzan Foundation.
