Delmar's Clinical Medical Assisting-1ml 3e Delmar Pub

This entry-level medical assistant workbook is part of a proven comprehensive learning system that covers all of the administrative, clinical, and general competencies designated by ABHES and CAAHEP. Specifically designed to reinforce and apply concepts and develop critical thinking skills, the resource provides exercises that strengthen the knowledge, skills, attitudes, and values necessary to prepare learners to become successful, multi-skilled medical assistants.

Comprehensive Medical Assisting Delmar

This new medical assisting learning system provides comprehensive coverage of administrative and clinical procedures and skills. The full-color text integrates the competencies identified in the new AAMA Role Delineation Study throughout, using a simulation approach to enhance learning by using characters from the Medical Assisting Videos throughout the case studies and examples in the textbook, workbook and student disk. Two Study Guide Software Disks packaged with the text provide a comprehensive review of administrative, clinical and general content areas. Step-by-step, detailed procedures and an innovative, open text design clearly illustrate standard and advanced medical assisting skills. End-of-chapter review questions with a critical-thinking emphasis reinforce learning of material covered. Unique topics covered include managed care, coping skills, therapeutic approach to patients, cultural diversity applications, preparation for the Examination (both

CMA and RMA), and professional career success strategies. Supplements
