Fisher, Ury & Patton's Getting to Yes AMACOM Describes a method of negotiation that isolates problems, focuses on interests, creates new options, and uses objective criteria to help two parties reach an agreement

Getting Ready to Negotiate John Wiley & Sons Before being published as a small book, these "counsels of perfection" and spiritual notes by Blessed Edward Poppe (1890-1924), a Belgian priest whose cause for canonization is under way, had been transcribed a hundred times by hand by those who had tasted their flavor, vigor, and supernatural wisdom. Fresh and luminous, this little book has been a tremendous success in Dutch, French, Italian, and German; it now appears at last in English. Responding well to the needs of the faithful, it will become an inseparable vademecum for all those who wish to live "under the gaze of God."

A member of the world renowned Program on Negotiation at Harvard Law School introduces the powerful next-generation approach to negotiation. A member of the world-renowned Program on Negotiation at Harvard Law School introduces the powerful next-generation approach to negotiation. For many years, two approaches to negotiation have prevailed: the "win-win" method exemplified in *Getting to Yes* by Roger Fisher, William Ury, and Bruce Patton; and the hard-bargaining style of Herb Cohen's *You Can Negotiate Anything*. Now award-winning Harvard Business School professor Michael Wheeler provides a dynamic alternative to one-size-fits-all strategies that don't match real world realities. *The Art of Negotiation* shows how master negotiators thrive in the face of chaos and uncertainty. They don't trap themselves with rigid plans. Instead they understand negotiation as a process of exploration that demands ongoing learning, adapting, and influencing. Their agility enables them to reach agreement when others would be stalemated. Michael Wheeler illuminates the improvisational nature of negotiation, drawing on his own research and his work with Program on Negotiation colleagues. He explains how the best practices of diplomats such as George J. Mitchell, dealmaker Bruce Wasserstein, and Hollywood producer Jerry Weintraub apply to everyday transactions like selling a house, buying a car, or landing a new contract. Wheeler also draws lessons on agility and creativity from fields like jazz, sports, theater, and even military science.

Getting to Yes with Yourself Penguin

This is the most complete catalogue of cutting-edge negotiating tactics ever published. This blockbuster work is written as a playbook, a field guide, so lawyers, sales professionals and other dealmakers will actively use it as negotiations proceed. Use the tactics individually or in combinations. Swap them in and out as negotiations proceed for maximum effectiveness, to keep your adversary off balance, to calm them, or to close the deal. Negotiations are fluid and the mood can change. Sticking to a single approach can lead to deal failure. Rosen says a superior negotiator always adjusts as a deal progresses, just as a winning coach makes in-game adjustments. There is no filler here. There are no war stories. This is not a biography of David Rosen's career. It is exactly what the title says - an easy-to-use directory of powerful negotiating tactics. Each technique is succinctly explained, many with useful examples. The descriptions range in length from a single paragraph to a few pages. While there are many very sophisticated principles at work in Rosen's catalogue of techniques, each is simply explained. This is not an academic work. It is a tool, a device, just like a notepad, a pen or a calculator, for dealmaking pros to reference constantly. Rosen gets high marks for his opening discussion of ethics. The tactics he compiled here are extremely powerful, and readers should use caution in deciding how to apply them. Some incorporate powerful psychological principles and are proven to work based on decades of heavy academic research. To quote Rosen from the book's Authors Note, "Some negotiators may find ideas in this book too aggressive, but that is a matter of perspective. It is not a matter of right versus wrong, or ethical versus unethical. One may be a principled and hardcore competitive negotiator or an unprincipled, unethical collaborative negotiator. So a given negotiator's description of a tactic as too "aggressive" is really nothing more than his or her marking of the spot on the style continuum beyond which he or she no longer feels comfortable. Another negotiator might feel discomfort far short of that first negotiator's comfort spectrum. Others still may feel no discomfort even at the extremes." Who will benefit from this collection of advanced strategies? Lawyers, negotiators, sales organizations and sales professionals, business owners, mediators, and anyone involved in negotiating, dealmaking, selling, cold-calling, following up and closing deals. What will you learn? A small

sample of the dozens of tactics: motivating others to buy, sell or reach other agreement; overcoming objections; creating or deflating a sense of urgency; helping opposing negotiators sell your deal to their own clients; overwhelming the opposition; and strategic uses of silence and indecision. But Rosen takes you far beyond that, and far beyond the other, generic books on the market. He introduces you to deeply-researched psychological principles, such as Prospect Theory, Coase Theorem, Asch Conformity principles and concepts like reciprocity, scarcity and consistency. Each is simply explained in a way that teaches you how to use them to achieve superior outcomes. Other books on negotiating don't even address these critical topics. Rosen explains them and shows you how they work. Buy this guide, study it, and keep it with you. There are so many potent and compelling techniques that you'll never remember them all. One thing's for sure, however. Once you become familiar with Rosen's easy-to-understand strategies, you'll never negotiate without this book again.

HBR's 10 Must Reads on Negotiation (with bonus article "15 Rules for Negotiating a Job Offer" by Deepak Malhotra) Penguin

Writing with warmth and humor, Connie Schultz reveals the rigors, joys, and absolute madness of a new marriage at midlife and campaigning with her husband, Sherrod Brown, now the junior senator from Ohio. She describes the chain of events leading up to Sherrod's decision to run for the Senate (he would not enter the fray without his wife's unequivocal support), and her own decision to step down from writing her Pulitzer Prize-winning column during the course of one of the nation's most intensely watched races. She writes about the moment her friends in the press became not so friendly, the constant campaign demands on her marriage and family life, and a personal tragedy that came out of the blue. Schultz also shares insight into the challenges of political life: dealing with audacious bloggers, ruthless adversaries, and political divas; battling expectations of a political wife; and the shock of having staffers young enough to be her children suddenly directing her every move. Connie Schultz is passionate and outspoken about her opinions—in other words, every political consultant's nightmare, and every reader's dream. "[Schultz is] a Pulitzer Prize-winning journalist with a mordant wit. . . . The [campaign memoir] genre takes on new life." —The Washington Post Book World "With her characteristic wit and reportorial thoroughness, [Schultz] describes the behind-the-scenes chaos, frustration and excitement of a political campaign and the impact it has on a candidate's family." —Minneapolis Star Tribune "Witty and anecdotal, whether read by a Democrat or a Republican." —Deseret Morning News

"Frank and feisty . . . a spunky tribute to the survival of one woman's spirit under conditions in which it might have been squelched." —The Columbus Dispatch

The Art of Negotiation Bantam

Here, from Bill Clinton, is a call to action. Giving is an inspiring look at how each of us can change the world. First, it reveals the extraordinary and innovative efforts now being made by companies and organizations—and by individuals—to solve

problems and save lives both “ down the street and around the world. ” Then it urges us to seek out what each of us, “ regardless of income, available time, age, and skills, ” can do to help, to give people a chance to live out their dreams. Bill Clinton shares his own experiences and those of other givers, representing a global flood tide of nongovernmental, nonprofit activity. These remarkable stories demonstrate that gifts of time, skills, things, and ideas are as important and effective as contributions of money. From Bill and Melinda Gates to a six-year-old California girl named McKenzie Steiner, who organized and supervised drives to clean up the beach in her community, Clinton introduces us to both well-known and unknown heroes of giving. Among them: Dr. Paul Farmer, who grew up living in the family bus in a trailer park, vowed to devote his life to giving high-quality medical care to the poor and has built innovative public health-care clinics first in Haiti and then in Rwanda; a New York couple, in Africa for a wedding, who visited several schools in Zimbabwe and were appalled by the absence of textbooks and school supplies. They founded their own organization to gather and ship materials to thirty-five schools. After three years, the percentage of seventh-graders who pass reading tests increased from 5 percent to 60 percent; Oseola McCarty, who after seventy-five years of eking out a living by washing and ironing, gave \$150,000 to the University of Southern Mississippi to endow a scholarship fund for African-American students; Andre Agassi, who has created a college preparatory academy in the Las Vegas neighborhood with the city ’ s highest percentage of at-risk kids. “ Tennis was a stepping-stone for me, ” says Agassi. “ Changing a child ’ s life is what I always wanted to do ” ; Heifer International, which gave twelve goats to a Ugandan village. Within a year, Beatrice Biira ’ s mother had earned enough money selling goat ’ s milk to pay Beatrice ’ s school fees and eventually to send all her children to school—and, as required, to pass on a baby goat to another family, thus multiplying the impact of the gift. Clinton writes about men and women who traded in their corporate careers, and the fulfillment they now experience through giving. He writes about energy-efficient practices, about progressive companies going green, about promoting fair wages and decent working conditions around the world. He shows us how one of the most important ways of giving can be an effort to change, improve, or protect a government policy. He outlines what we as individuals can do, the steps we can take, how much we should consider giving, and why our giving is so important. Bill Clinton ’ s own actions in his post-presidential years have had an enormous impact on the lives of millions. Through his foundation and his work in the aftermath of the Asian tsunami and Hurricane Katrina, he has become an international spokesperson and model for the power of giving. “ We all have the capacity to do great things, ” President Clinton says. “ My hope is that the people and stories in this book will lift spirits, touch hearts, and demonstrate that citizen activism and service can be a powerful agent of change in the world. ”
