Sex in Development examines how development projects around the world intended to promote population management, disease prevention, and maternal and child health intentionally and unintentionally shape ideas about what constitutes "normal" sexual practices and identities. From sex education

in Uganda to aids prevention in India to family planning in Greece, various sites of development work related to sex, sexuality, and reproduction are examined in the rich, ethnographically grounded essays in this volume. These essays demonstrate that ideas related to morality are repeatedly enacted in ostensibly value-neutral efforts to put into practice a "global" agenda reflecting the latest medical science. Sex in Development combines the cultural analysis of sexuality, critiques of global development, and science and technology studies. Whether considering the resistance encountered by representatives of an American pharmaceutical company attempting to teach Russian doctors a "value free" way to offer patients birth control or the tension between Tibetan Buddhist ideas of fertility and the modernization schemes of the Chinese government, these essays show that attempts to make sex a universal moral object to be managed and controlled leave a host of moral ambiguities in their wake as they are engaged, resisted, and reinvented in different ways throughout the world. At a time of rising global economic precarity and social inequality, the field of economic anthropology offers solutions through the study of local and contextualized economic practices. This book is made up of an exciting collection of succinct essays authored by leading scholars primarily from the field of economic anthropology, but also featuring contributions from sociology and history. The chapters engage with debates at the cutting edge of research on the topics of Eurasia, the anthropology of postsocialism and the embeddedness of economic practices.

Explorations in Economic Anthropology Springer Nature

This book is a study of the resurgence and re-imagination of feminist discourse on gender and sexuality in South Asia as told through its cinematic, literary, and social media narratives. It brings incisive and expert analyses of emerging disruptive articulations that represent an unprecedented surge of feminist response to the culture of sexual violence in South Asia. Here scholars across disciplines and international borders chronicle the expressions of a disruptive feminist solidarity in contemporary South Asia. They offer critical investigations of these newly complicated discourses across narrative forms – hashtag activism on Facebook and Twitter, the writings of diasporic writers such as Jhumpa Lahiri, Bollywood films like *Mardaani*, feminist Dalit narratives in the fiction of Bama Faustina, social media activism against rape culture, journalistic and cinematic articulations on queer rights, state censorship of "India 's Daughter", and feminist film activism in Bangladesh, Kashmir, Nepal, and Sri Lanka.

Divine Domesticities: Christian Paradoxes in Asia and the Pacific fills a

huge lacuna in the scholarly literature on missionaries in Asia/Pacific and is transnational history at its finest. Co-edited by two eminent scholars, this multidisciplinary volume, an outgrowth of several conferences/seminars, critically examines various encounters between western missionaries and indigenous women in the Pacific/Asia ...

Taken as a whole, this is a thought-provoking and an indispensable reference, not only for students of colonialism/imperialism but also for those of us who have an interest in transnational and gender history in general. The chapters are very clearly written, engaging, and remarkably accessible; the stories are compelling and the research is thorough. The illustrations are equally riveting and the bibliography is extremely useful.

—Theodore Jun Yoo, History Department, University of Hawai'i
The editors of this collection of papers have done an excellent job of creating a coherent set of case studies that address the diverse impacts of missionaries and Christianity on

'domesticity', and therefore on the women and children who were assumed to be the rightful inhabitants of that sphere ... The introduction to the volume is beautifully written and sets up the rest of the volume in a comprehensive way. It explains the book's aim to advance theoretical and methodological issues by exploring the role of missionary encounters in the development of modern domesticities; showing the agency of indigenous women in negotiating both change and continuity; and providing a wide range of case studies to show 'breadth and complexity' and the local and national specificities of engagements with both missionaries and modernity. My view is that all three aims are well and truly fulfilled. —Helen Lee, Head, Sociology and Anthropology, La Trobe University, Melbourne

The Truth About Me Routledge

Through an exploration of subjects such as Gandhi impersonators, performance artists, and ritual participants, *Mimetic Desires* makes an intervention toward understanding the phenomenon of

impersonation and guising in South Asia and the world. This volume defines impersonation as the temporary assumption of an identity or guise in social and aesthetic performance that is perceived as not one's own, and guising as sartorial and kinetic play more generally. Interrogating the legitimacy of the purported dialectic between the "real/original" and "fake/dupe," *Mimetic Desires* refutes the ordering of identity along the lines of a binary or dichotomy that presupposes the myth of an original identity. By peeling back the layers of performative masks to reveal the process of the masquerade itself, we can see that those with the most social capital are often those with the most power and opportunities to impersonate "up" and "down" social hierarchies. The book's twelve chapters disclose sites and processes of sociopolitical power facilitated by normative markers of social status relating to race, ethnicity, gender, caste, class, and religion—and how those markers can be manipulated to express and enhance individual and group power. The first comprehensive study to focus on impersonation in South Asia, *Mimetic Desires* expands on previous scholarship

on impersonation and guising in vernacular theatre, dance, public processions, and religious rituals. It is particularly in conversation with the robust scholarship on gender performance in South Asia's theatrical and dance forms. *Mimetic Desires* explores some of the contexts and forms of impersonation in South Asia, with its remarkable array of performing arts, to gain insight into the very human and quotidian practices of impersonation and guising.

This volume aims to look both at as well as beyond the 'Delhi Gang Rape' through the lens of Indian Media Studies. The editors consider it a critical event, or rather critical media event that needs to be contextualized within a rapidly changing, diversifying and globalizing Indian society which is as much confronted with new ruptures, asymmetries and inequalities as it may still be shaped by the old-established structures of a patriarchal social order. But the volume also looks beyond the 'Delhi Gang Rape' and introduces other related thematic areas of an emerging research field which links Youth,

Media and Gender Studies.

Gender persists as a key site of social inequality globally, and within contemporary south Asian contexts, the cultural practices which make up masculinities remain vital for understanding everyday life and social relations. Yet masculinities, and their discontents, are an understudied and often misrepresented facet of gender relations and cultural dynamics. Gender and Masculinities offers a collection of chapters that seek to unravel the complex ideas, practices and concepts revolving around gender structures and masculinities in India and Sri Lanka. The contributions to this volume draw on a range of disciplines, including history, comparative literatures, religion, anthropology, and development studies to illuminate the key issues that have shaped our understanding of gender relations and masculinities over time and across a range of geographical areas. By carefully attending to historical and contemporary gender ideologies and practices in South Asia, this book provides a critical exploration of masculinities in their plurality, as shifting, culturally located and embedded in religious ideologies, power relations, the politics of nationalism, globalisation and economic struggles. The volume will attract scholars interested in history, anthropology, sociology, nationalism, colonialism, religion and kinship, and popular culture. This book was published as a special issue of South Asian History and Culture.

Routledge Revivals: The Challenge of Islam (2005) SAGE

First published in 2005, this book addresses the challenges arising from Christian-Muslim encounter and attempts to enable outsiders to understand the religion of Islam. The author offers distinctive perspectives that compliment much other literature in the study of Islam and in particular Christian-Muslim relations and the relation of Islam and the west. The

book is divided into three parts: Part I constitutes an introduction to Islam, Part II delves into aspects of the wider encounter with Islam and Part III explores issues in regard to the prospect of engaging in dialogue with Islam. The author argues that in the post-9/11 world the imperative to understand and engage with Islam is urgent and intends this work to assist the reader in doing so.

Governing Gender and Sexuality in Colonial India Columbia University Press

Transgender India: Understanding Third Gender Identities and Experiences provides the first scholarly study of hijras, transmen, and other third gender Indians from the perspective of a range of disciplines in the behavioral and social sciences, as well as the humanities. This book fosters a dialogue across academic fields, as authors cross-reference each other's chapters, comparing and contrasting their views of transgender experience and identity in India. This multidisciplinary approach helps readers understand the complex interplay of factors that have led to discrimination against third gender individuals, as well as paths forward to a more equitable and just future, in ways that go beyond the perspective of a single academic field. This multidisciplinary approach is the book's most distinctive feature in comparison to existing works limited to individual fields such as anthropology, investigative journalism, and history. The broad scope of Transgender India is relevant to scholars and students in diverse disciplines who seek a greater and

more nuanced understanding of the behavioral and societal impact of these issues.
