A *Play Makers Novella* CarTech Inc Praise for "Wired to Care" "Wired to Care" will convince you that businesses succeed with their hearts as much as their heads. Dev Patnaik has given us just what we need for the lean years ahead. "MALCOLM GLADWELL, author of "Outliers, Blink, " and" The Tipping Point" "Wired to Care" describes how to recover the basic human abilities of empathy that may be buried by your day-to-day business routines. Dev Patnaik shows how you can create a more empathic--and much more successful--business. "CHIP HEATH, author of "Made to Stick" "Dev Patnaik's "Wired to Care" maps a path to innovation fueled by 'seeing the world with new eyes.' On numerous occasions, Dev and his colleagues at Jump helped us break through to those most critical insights." BETH COMSTOCK, Chief Marketing Officer, GE "Wired to Care" offers a roadmap to success paved with empathy. The bottom line is better profits, better products, and happier employees. There is a better day for business (thankfully) when companies are wired to care. "ROBYN WATERS, former VP of Trend, Target Stores, and author of "The Hummer and the Mini" Blurring the Line Between Inside and Out What's the critical difference between Nike and every other shoe company on the planet? Why do some airline executives continue to insist that air travel is great, when we all know better? What has enabled Zildjian, a family business founded outside Istanbul, to thrive for almost 400 years? In this essential and illuminating book, top business strategist Dev Patnaik tells the story of how organizations of all kinds prosper when they tap into a power each of us already has: empathy, the ability to reach outside of ourselves and connect with other people. When people inside a company develop a shared sense of what's going on in the world, they see new opportunities faster than their competitors. They have the courage to take a risk on something new. And they have the gut-level certitude to stick with an idea that doesn't take off right away. People are "Wired to Care," and many of the world's best organizations are, too. In pursuit of this idea, Patnaik takes readers inside big companies like IBM, Target, and Intel to see widespread empathy in action. But he also goes to farmers' markets and a conference on world religions. He dives deep into the catacombs of the human brain to find the biological sources of empathy. And he spends time on both sides of the political aisle, with James Carville, the Ragin' Cajun, and John McCain, a national hero, to show how empathy can give you the acuity to cut through a morass of contradictory information. "Wired to Care "is a compelling tale of the power that people have to see the world through each other's eyes, told with passion for the possibilities that lie ahead if leaders learn to stop worrying about their own problems and start caring about the world around them. As Patnaik notes, in addition to its considerable economic benefits, increasing empathy for the people you serve can have a personal impact, as well: It just might help you to have a better day at work.

A nerdy whiskey distiller's life is upended when a famous

rockstar moves to town and murders start occurring. BOOK 1:

MURDER COMES TO NOTCHEY CREEK "Andrews mixes up

a tasty cocktail out of appealing ingredients." -Kirkus Reviews

It's Halloween in Notchey Creek, Tennessee, and whiskey

distiller Harley Henrickson is preparing for the town's autumn

harvest festival. Harley lives a quiet life of books and hard

work, an introvert who is dismissed by many as the town nerd.

Her life is changed when she and her best friend, Tina

Rizchek, discover a disoriented stranger in the ditch, mumbling

about a lost boy. When the man disappears into the woods,

Harley is left with many unanswered questions. Who was the

mysterious man, and what happened to the boy? As she digs

deeper, she discovers the stranger, in reality, was no stranger

at all, and had ties to many highly-esteemed citizens in town.

When one of those citizens, a wealthy history professor, is

murdered on Halloween night, Harley decides to investigate.

What she discovers is a multitude of secrets, lies, and sins,

dating back decades, and revolving around a rockstar who has

chosen Notchey Creek as his new home. BOOK TWO: THE

GHOSTS OF NOTCHEY CREEK "A deftly constructed and thoroughly enjoyable small-town murder mystery with a Christmas twist." -- Kirkus Reviews A dead body in the woods and ghostly encounters at Briarcliffe have Harley Henrickson searching for answers in the town's tragic history. It's the holiday season in Notchey Creek, and Harley Henrickson is busy mixing yuletide cocktails at her store, Smoky Mountain Spirits. There is snow on the ground, holiday music in the air, and wreaths on every lamppost. Everything seems perfect for the town's biggest event of the year, the Small Town Christmas Festival. But not all is merry and bright in this little mountain town. Harley senses something eerie in the air, and it all points to Notchey Creek's oldest and most beautiful home—Briarcliffe. No sooner has rock star Beau Arson settled into Briarcliffe Mansion, than a self-righteous ghost hunter arrives in town, telling macabre tales about Beau's new home. According to legend, a young woman by the name of Margaret Reed hanged herself in the woods behind Briarcliffe on Christmas Day, over a century ago. To make matters worse, Beau has been experiencing ghostly encounters at night, seeking to drive him from his family's home. When Harley finds the body of a mysterious woman in the woods near Briarcliffe, and then a wealthy antiques dealer is murdered, she decides to investigate. BOOK THREE: LOVING AND DYING IN NOTCHEY CREEK A Booklife by Publishers Weekly Editor's Pick "Another twisty, entertaining entry in this cozy series featuring an appealing investigator." - Kirkus Reviews A trail of poison-pen letters, car fires, lethal cupcakes, secret affairs, and blackmail, leads Harley Henrickson to the town's new bookstore and a handsome graduate student who has come to Notchey Creek under mysterious circumstances. It's Valentine's Day in Notchey Creek, Tennessee, and whiskey distiller Harley Henrickson is volunteering at the Reading is Love festival. Books line the streets, snowflakes dapple the air, and paper hearts adorn storefront windows. But no sooner have the festivities begun, when Harley finds the charred remains of a car and a body outside Briarwood Park. While Sheriff Jed Turner is initially convinced the fire was an accident, Harley suspects something more sinister. When a much-disliked editor of the town's newspaper is murdered, and Harley's best friend, Tina Rizchek, is framed for the crime, Harley decides to investigate. Includes recipes.

Donny presents what Harley-Davidson has to say through the myriad of service bulletins back in the day in everyday language. He also uses his extensive practical experience to constructively critique the official line, offers additional hard-earned information, and then shares what he does to his own bikes. He provides • solutions to fix the Shovelhead's teething problems; • Harley's responses to ongoing problematic aspects of vibration, as well as the aftermarket's cures; • tips on working with the Shovelhead's carburetors and five ignitions; starter and charging systems, electrical switches, circuit breakers, and relays; and • best practices for lubrication, as well as the progression of front forks and shocks, brakes, wheels, and tires. Many people modify their Harley-Davidson engines—and find the results disappointing. What they might not know—and what this book teaches—is that emphasizing horsepower over torque, the usual approach, makes for a difficult ride. Here he brings that experience to bear, guiding motorcycle enthusiasts through the modifications that make a bike not just fast but comfortable to ride. With clear, step-by-step instructions, his book shows readers how to get high performance out of their Harleys—and enjoy them, too.
