An NCSS Notable Social Studies Trade Book for Young People
Christopher Columbus is one of the

most famous people in world history, yet few know the full story of the amazing, resourceful, and tragic Italian explorer. Christopher Columbus and the Age of Exploration for Kids portrays the "Admiral of the Ocean Seas" neither as hero nor heel but as a flawed and complex man whose significance is undeniably monumental. Kids will gain a fuller picture of the seafarer's life, his impact, and the dangers and thrills of exploration as they learn about all four of Columbus's voyages to the New World, not just his first, as well as the year that Columbus spent stranded on the island of Jamaica without hope of rescue. Students, parents, and teachers will appreciate the in-depth discussions of the indigenous peoples of the New World and of the consequences of Columbus's voyages—the exchange of diseases, ideas, crops, and populations between the New World and the Old. Fun hands-on activities illuminate both the nautical concepts introduced and the times in which Columbus lived. Kids can: Tie nautical knots Conduct a blanket (silent) trade Make a compass Simulate a hurricane Take nautical measurements And much more

A collection of quotations and observations by 1,500

women from the sixth century B.C. to the present day
German Studies in North America Beacon Press (MA)
The Orations of Maximus of Tyre cover a range of philosophical topics - from Platonic theology to the proper attitude to pleasure, via prayer, demonology, the problem of evil, and the active and contemplative lives - in a manner calculated to appeal to an educated and literate, but philosophically unsophisticated, public. Their unique blend of Middle Platonic doctrine with a polished and lively rhetorical form opens a window on to the high culture of the second century AD: the world not only of the Second Sophistic but also of the first Christian apologists. They were subsequently read and studied by the Florentine Platonists of the second half of the fifteenth century. The introduction and notes of this translation, which is the first into any modern language since 1804, pay attention both to the Orations as a product of their own culture and to the history of their reception in the Byzantine and Renaissance periods.
Abrams
Ordained as a priest, Antonio Lucio Vivaldi became one of Europe's most popular composers during the early part of the eighteenth century. He wrote hundreds of concertos, dozens of operas, and many sacred works before his music fell out of fashion during the latter part of his life. He died in obscurity and his work suffered a similar fate for almost two centuries. His music was rescued from oblivion in the 1930s. His most famous work, *The Four*

Seasons, has since become one of the best-selling classical compositions of all time.

Beacon Biographies Oxford University Press

Captain von Trapp's narrative of his wartime U-boat exploits has lurked in the German and French for generations and now finds an adequate translator into English in one of his granddaughters. He emerges from his account as a man of great skill, considerable compassion (even for his victims), and sufficient tact and tolerance to handle the kind of polyglot crews that sailed in the Mediterranean and Adriatic Seas. In two submarines, the antique U-5 and the French prize, U-14, he became the highest scoring Austro-Hungarian submariner, despite equipment that was sometimes more dangerous to him and his men than to the enemy. He relates deadly duels with submarine sweepers, narrow escapes and excruciatingly close calls, and the spectacular sinking of cargo and war ships. He fought on to the end maintaining a keen sense of the camaraderie of seamen from every corner of the Austro-Hungarian Empire knowing that the Dual Monarchy he served so well was crumbling. In the end, he gave the last salute of the title when the imperial flag was hauled down for the last time.

School Library Journal Beacon Press (MA)

Certain Hollywood movies are now so deeply woven into the cultural fabric that lines of their dialogue - for example, 'Make him an offer he can't refuse' - have been incorporated into everyday discourse. The films explored in this book, which include *The Godfather*, *Jaws*, *The Big Lebowski*, *Field of Dreams* and *The Village*, have become important cultural myths, fascinating windows into the schisms, tensions, and problems of American culture. *Hollywood Blockbusters: The Anthropology of Popular Movies* uses anthropology to understand why these movies have such enduring appeal in this age of fragmented audiences and ever-

faster spin cycles. Exploring key anthropological issues from ritual, kinship, gift giving and totemism to literacy, stereotypes, boundaries and warfare, this fascinating book uncovers new insights into the significance of modern film classics for students of Film, Media, Anthropology and American Cultural Studies.

Forthcoming Books Reed Reference Publishing

Here is the incredible true story of the woman inspired the beloved movie *The Sound of Music*. See how she became stepmother to the von Trapp children, and how the family escaped the Nazi's and became a revered singing group.

The Publishers Weekly Rowman & Littlefield

This Coretta Scott King Honor Book provides a much-needed window into a little-documented time in black history. The poignant story, based on the memoir of Maritcha Rémond Lyons, shows what it was like to be a black child born free and living in New York City in the mid-1800s.
