In today's media-flooded world, there is no way to control all of the information, claims, and enticements that reach

young people. The best thing to do is arm them with the sword of critical thinking. Maybe Yes, Maybe No is a charming introduction to self-confidence and self-reliance. The book's ten-year-old heroine, Andrea, is always asking questions because she knows "you should prove the truth of a strange story before you believe it." "Check it out. Repeat the experiment. Try to prove it wrong. It has to make sense." writes Barker, as he assures

young readers that they are fully capable of figuring out what to believe, and of knowing when there just isn't enough information to decide. "You can do it your own way. If you are a good skeptic you will know how to think for yourself."

Maybe Not Prometheus Books Friends every day Good friends like Frog and Toad enjoy spending their days together. They fly kites, celebrate Toad's birthday, and share the shivers when one of them tells a scary story. Here are five funny stories that celebrate friendship all day,

Maybe Yes! Maybe No! Scholastic Canada Thinking about ultimate reality is becoming increasingly transreligious. This transreligious turn follows inevitably from the discovery of divine truths in multiple traditions. Global communications bring the full range of religious ideas and practices to anyone with access to the internet. Moreover, the growth of the "nones" and those who describe

themselves as "spiritual but not religious" creates a pressing need for theological thinking not bound by prescribed doctrines and fixed rituals. This book responds to this vital need. The chapters in this volume each examine the claim that if the aim of theology is to know and articulate all we can about the divine reality, and if revelations, enlightenments, and insights into that reality are not limited to a single tradition, then what is

called for is a theology without confessional restrictions. In other words, a Theology Without Walls. To ground the project in examples, the volume provides emerging models of transreligious inquiry. It also includes sympathetic critics who raise valid concerns that such a theology must face. This is a book that will be of urgent interest to theologians, religious studies scholars, and philosophers of religion. It will be especially suitable

for those interested in comparative theology, inter-religious and interfaith understanding, new trends in constructive theology, normative religious studies, and global philosophy of religion. Maybe Maybe Marisol Rainey Ella Miles
“Shelby and her art are extremely my shit. You need this book.” —Samantha Irby, New York Times bestselling author of *We Are Never Meeting in Real Life* “The rare Instagram-turned-book that actually works.” —Jezebel A wickedly

funny illustrated look at living and dating in a patriarchal culture that celebrates men for displaying the bare minimum of human decency Surely you ’ re familiar with good boys. They ’ re the ones who put “feminist ” in their Tinder bio but talk over you the entire date. They ghost you, but they feel momentarily guilty. They once read a book by a woman author. (It was required, but they thought it was “okay.”) And of course, they bravely condemn sexual harassment (except when the perpetrator is their buddy Chad). This book explores why so-called and self-proclaimed

good boys are actually not so great, breaking down our obsession with celebrating male mediocrity and rewarding those who clear the very low bar of not being outwardly awful. Through clever illustrations and written vignettes, *Awards for Good Boys* makes literal the tendency to applaud men for doing the absolute least and offers hilarious and cathartic cultural commentary through which we may begin to unravel our own assumptions about gender roles and how we treat each other, both on and offline. *Awards for Good Boys* Kailash Verlag

When it comes to speaking to strangers (or, let ’ s face it, speaking at all to almost anyone) Jamie ’ s a choke artist. There ’ s no way he ’ d ever knock on doors to ask people for their votes...until he meets Maya. NO Maya Rehman ’ s having the worst Ramadan ever. Her best friend is too busy to hang out, her summer trip is canceled, and

now her parents are separating. Why her mother thinks the solution to her problems is political canvassing—with some awkward dude she hardly knows—is beyond her. MAYBE SO Going door to door isn ’ t exactly glamorous, but maybe it ’ s not the worst thing in the world. After all, the polls are getting closer—and so are Maya and Jamie. Ms Maybe Yes and Ms Maybe No

are two good friends. They're the daughters of perpetual arch-rivals, Mr Yes and Mr No respectively. This bunch of essays and poems invites you to befriend these two comely daughters while you take your side with either Mr Yes or Mr No. It encourages you to look for rainbows, to draw in a little arts and philosophy, to make your own music. Had it not been for these two daughters, this world would only show black and white, right and wrong, good and evil. There would be no colours, no culture, no arts, no democracy.

Whose life are you living? It's
hard to live authentically

when you're trying to meet the expectations of everyone around you and denying the inner voices that know your truth. Grace Anne Stevens spent over sixty years hiding and denying her inner truth. In *No! Maybe? Yes! Living My Truth*, she shares not only her voice but many of her internal voices, as she journeyed from denying, to questioning, and finally accepting her truth, which led to transitioning her gender at the age of sixty-four. More than just a transgender memoir, this book is about relationships, both

internal and external, about change and authenticity, and is uniquely informational, inspirational, and transformational to all who may question their own journey.

Yes? No! Maybe... Ella Miles Tom's mum is madly gathering stuff from around the house to sell off at a boot sale. Tom's worried she might get rid of some of his prized things, but then again he might make a little money selling his stuff to buy a scooter! Meanwhile, Business Day is coming up at school.

Tom comes up with a brilliant idea for an item his team can sell for Business Day. But because he was busy doodling, Tom accidentally gets himself switched to another group. And Tom's sister Delia continues to be grumpy, but now she has a key to her bedroom. What is she keeping locked behind that door? From Global to Local Routledge This brilliantly original book dismantles the underlying assumptions that drive the decisions made by companies and governments throughout the world, to show that our

shared narrative of the global economy is deeply flawed. If left unexamined, they will lead corporations and countries astray, with dire consequences for us all. For the past fifty years or so, the global economy has been run on three big assumptions: that globalization will continue to spread, that trade is the engine of growth and development, and that economic power is moving from the West to the East. More recently, it has also been taken as a given that our interconnectedness—both physical and digital—will increase without limit. But what if all these ideas are wrong? What

if everything is about to change? What if it has already begun to change but we just haven't noticed? Increased automation, the advent of additive manufacturing (3D printing, for example), and changes in shipping and environmental pressures, among other factors, are coming together to create a fast-changing global economic landscape in which the rules are being rewritten—at once a challenge and an opportunity for companies and countries alike. Maybe Yes Simon and Schuster Nearly all human beings want a lasting, happy relationship, but in many cases it just doesn't

work out. Some people seem always to fall in love with the wrong kind of person. With others, the relationship breaks down just when it is becoming closer. And some live with a partner but still feel lonely and isolated. What is going wrong? In the final analysis, fear of commitment is at the bottom of many relationship problems, says the expert on fear of commitment Stefanie Stahl. In vivid case histories, the German psychotherapist shows the many ways in which fear of commitment manifests itself. She explains the typical behavior patterns of those who fear

commitment, introducing the 'hunters', 'princesses' and 'stonewallers'. The famous German psychologist illustrates why fear of commitment is genuine fear, explains possible causes and shows how to overcome it. Anyone who has read this book will know how to recognize people who fear commitment and how to deal with them. A helpful book for those affected and for their partners.
