1952 play by the American playwright Arthur Miller. It is a dramatization of the Salem witch trials that took place in the Province of Massachusetts Bay during 1692 and 1693. Miller wrote the play as an allegory of McCarthyism, when the US government blacklisted accused communists. Miller himself was questioned by the House of Representatives' Committee on Un-American Activities in 1956 and convicted of "contempt of Congress" for refusing to identify others present at meetings he had attended. It was first performed at the Martin Beck Theater on Broadway on January 22, 1953. Miller felt that this

production was too stylized and cold and the reviews for it were largely hostile (although The New York Times noted "a powerful play in a driving performance"). Nonetheless, the production won the 1953 "Best Play" Tony Award. A year later a new production succeeded and the play became a classic. It is a central work in the canon of American drama. Fujii Books' edition of "The Crucible" contains supplementary texts: * "Tragedy And The Common Man", an essay by Arthur Miller. * Excerpts from Nathaniel Hawthorne's magnum opus "The Scarlet Letter", a narrative of the Salem Witch trials. * A few

selected quotes of Arthur Miller. McDougal Littell/Houghton Mifflin Yin and Yang in the English Classroom: Teaching With Popular

Culture Texts Inc. is designed to provide college professors and high school teachers with both halves they need to tackle the job of teaching students literature and writing skills: theoretical foundations of, and practical applications for, the modern classroom. *Holt McDougal Literature: Teacher's edition* Rex Bookstore,

This book is intended as a resource for teachers and curriculum developers who select textbooks for secondary English courses. It includes a compilation of 32 factual textbook reviews obtained from the application of a review instrument, which was based on the California "Model Curriculum Standards: Grades Nine through

Twelve, English Language Arts" and the "English-Language Arts Framework for California Public Schools: Kindergarten through Grade Twelve." The instrument described in the book was applied to selected English composition/grammar and reading/literature textbooks. The book suggests that the resulting reviews can be used by teachers as a screening device to reduce the number of books they review and pilot studies they conduct; thus educators will have more time to do in-depth reviews of two or three textbooks which appear to match their course requirements and their students' academic needs. The book also states that the review instrument can be adapted by districts to reflect their own English objectives and test results. Every review in the book includes two parts and a publisher's description (which appears in the Appendix)--a section which depicts the extent to which the emphasis on content and process is given to each of the topics in the textbooks reviewed, and a section which includes

topics on content and processes which might be found only in teachers' editions. The book does not make assessments regarding the quality of the books reviewed, but rather provides information which teachers may find useful in making quality judgments and selecting specific textbooks for English programs.
