Lakhmir Singh's Science for Class 6 VK Global Publications

The Critical Heritage gathers together a large body of critical sources on major figures in literature. Each volume presents contemporary responses to a writer's work, enabling students and researchers to read for themselves, for example, comments on early performances of Shakespeare's plays, or reactions to the first publication of Jane Austen's novels. The carefully selected sources range from landmark essays in the history of criticism to journalism and contemporary opinion, and little published documentary material such as letters and diaries. Significant pieces of criticism from later periods are also included, in order to demonstrate the fluctuations in an author's reputation. Each volume contains an introduction to the writer's published works, a selected bibliography, and an index of works, authors and subjects. The Collected Critical Heritage set will be available as a set of 68 volumes and the series will also be available in mini sets selected by period (in slipcase boxes) and as individual volumes.

A Tale of Two Cities (1859) is the second historical novel by Charles Dickens, set in London and Paris before and during the French Revolution. It depicts the plight of the French proletariat under the brutal oppression of the French aristocracy in the years leading up to the revolution, and the corresponding savage brutality demonstrated by the revolutionaries toward the former aristocrats in the early years of the revolution. It follows the lives of several protagonists through these events, most notably Charles Darnay, a French once-aristocrat who falls victim to the indiscriminate wrath of the revolution despite his virtuous nature, and Sydney Carton, a dissipated English barrister who endeavours to redeem his ill-spent life out of love for Darnay's wife, Lucie Manette.

WORKBOOK MATH CBSE- CLASS 6TH S. Chand Publishing History, Geography and Civics provides an in-depth and engaging introduction to teaching and learning socio-environmental education from F-6 in Australia and New Zealand. It explores the centrality of socio-environmental issues to all aspects of life and education and makes explicit links between pedagogical theories and classroom activities. Part I introduces readers to teaching and learning history, geography and environmental studies, and civics and citizenship, as well as issues in intercultural and global education. Part II explores the use of media and sources, values and attitudes, assessment and creative teaching. Each chapter provides links to the Australian Curriculum, including cross-curriculum priorities: sustainability, Aboriginal and Torres Strait Islander education, and Asia and Australia's engagement with Asia. History, Geography and Civics encourages the reader to consider their own beliefs, values and attitudes in relation to their teaching and includes provocations and reflective questions to foster discussion and engagement. "Set in Aligarh in the early 1960s, after the dust of Partition has ostensibly settled, Topi Shukla is a story of two friends - one Hindu and the other Muslim." "Through the characters of people like Topi and Iffan, the novel looks at the lives of ordinary people trying to survive in a society that insists on a brutal conformity of behaviour. It is about individuals whose spirits are paralysed because they cannot conform, and about history's inability to teach mankind any worthwhile lessons." "Language plays an important part in this narrative, operating almost as a character in its own right. Topi, as a Hindi bull in the Urdu china shop, invokes the historical stand-off between the two languages. The novel also explores the culture and psyche of Uttar Pradesh with its very Muslim Aligarh, its very Hindu Benares, and their exotic confluence in Lucknow." --BOOK JACKET.

The book that inspired the major new motion picture Mandela: Long Walk to Freedom. Nelson Mandela is one of the great moral and political leaders of our time: an international hero whose lifelong dedication to the fight against racial oppression in South Africa won him the Nobel Peace Prize and the presidency of his country. Since his triumphant release in 1990 from more than a quarter-century of imprisonment, Mandela has been at the center of the most compelling and inspiring political drama in the world. As president of the African National Congress and head of South Africa's anti-apartheid movement, he was instrumental in moving the nation toward multiracial government and majority rule. He is revered everywhere as a vital force in the fight for human rights and racial equality. LONG WALK TO FREEDOM is his moving and exhilarating autobiography, destined to take its place among the finest memoirs of history's greatest figures. Here for the first time, Nelson Rolihlahla Mandela tells the extraordinary story of his life--an epic of struggle, setback, renewed hope, and ultimate triumph.

Social Science; History 8 Arihant Publications India limited Concepts of Biology is designed for the single-semester introduction to biology course for non-science majors, which for many students is their only college-level science course. As such, this course represents an important opportunity for students to develop the necessary knowledge, tools, and skills to make informed decisions as they continue with their lives. Rather than being mired down with facts and vocabulary, the typical non-science major student needs information presented in a way that is easy to read and understand. Even more importantly, the content should be meaningful. Students do much better when they understand why biology is relevant to their everyday lives. For these reasons, Concepts of Biology is grounded on an evolutionary basis and includes exciting features that highlight careers in the biological sciences and everyday applications of the concepts at hand. We also strive to show the interconnectedness of topics within this extremely broad discipline. In order to meet the needs of today's instructors and students, we maintain the overall organization and coverage found in most syllabi for this course. A strength of Concepts of Biology is that instructors can customize the book, adapting it to the approach that works best in their classroom. Concepts of Biology also includes an innovative art program that incorporates critical thinking and clicker questions to help students understand--and apply--key concepts.
