Read Book Periodisation In Football Raymond Verheijen football forward - 2019 The block periodization of Verheijen consists of a cycle of 6 weeks, where after every two weeks the focus is shifted towards another capacity (see image 1).

Verheijen ' s Block periodization consists of a cycle of 6 weeks.

After every two weeks, the focus is shifted towards another capacity (see image 1). One of the speaking parts of this model is that in every cycle the focus shifts from large field dimensions in the first and second week (high volume, low intensity) towards small field dimensions in the fifth and sixth week (low volume, high intensity).
