projects and can

therefore be hidden for a
long time. If a cut-over
and its associated
deliverables are not
integrated within the
overall Project Plan then
projects are at risk of
being delivered too late.
For this reason, there is
an urgent business need
to govern projects in such
a manner that they do not
forget to cover cut-over
related items.

ProjectManagement.com - Project Cutover-A vital step in

...

Key Takeaways: (1) Startup activity that needs to be done within SAP before Go Live must be in the Cutover Plan, (2) the

Cutover Plan is a controlled document with change control – we need to get it first time right ! (3) Startup planning is not just a site or division – everything is now integrated ! 11.

A framework for cut-over management

Cut over plan means, fixation of date to upload the existing data into SAP. For example client wants to update all the transaction balance as on 31.10.2007. But they will update oct transactions in the month of nov 01st to 15th. So client will give all opening balance as on 15th but effect from 31.10.2007.
