The Complete Idiot's Guide to

Writing a Memoir
Penguin
Let's face it- most students don't take calculus because they find it intellectually stimulating. It's not . . . at least for those who come up on the wrong side of the bell curve! There they are, minding their own business, working toward some non-science related degree, when . . . BLAM! They get next semester's course schedule in the mail, and first on the list is the mother of all loathed college courses . . . CALCULUS! Not to fear-The Complete Idiot's Guide to Calculus, Second Edition, like its predecessor, is a curriculum-based

companion book created with this audience in mind. This new edition continues the tradition of taking the sting out of calculus by adding more explanatory graphs and illustrations and doubling the number of practice problems! By the time readers are finished, they will have a solid understanding (maybe even a newfound appreciation) for this useful form of math. And with any luck, they may even be able to make sense of their textbooks and teachers.

Penguin

You're no idiot, of course. You host the most fabulous dinner parties and select just the right wines. But when it comes time to play some bridge, you feel like hiding away in the kitchen. Don't spend the evening washing dishes! This book will help you learn the rules of the game in friendly, easy-to-swallow bites. You'll learn how to deal and play a "rubber"(that's bridge-talk for a game), how to keep score, and even how to deal with less-than-perfect partners!
