In the tradition of Octavia Butler, here is radical self-help, society-help, and planet-help to shape the futures we want. Change is constant. The world, our bodies, and our minds are in a constant state of flux. They are a stream of ever-mutating, emergent patterns. Rather than steel ourselves

against such change, Emergent Strategy teaches us to map and assess the swirling structures and to read them as they happen, all the better to shape that which ultimately shapes us, personally and politically. A resolutely materialist spirituality based equally on science and science fiction: a wild feminist and afro-futurist ride! adrienne maree brown, co-editor of *Octavia's Brood: Science Fiction from Social Justice Movements*, is a social justice facilitator, healer, and doula living in Detroit.

All the evidence points to an age-old rival coven as the culprits, and Hadley must lead the young witches of her coven in a fight to avenge their elders and rescue their missing parents. Is it true that Christianity is being marginalised by the secular media, at the expense of Islam? Are the mass media Islamophobic? Is atheism on the

rise in media coverage? Media Portrayals of Religion and the Secular Sacred explores such questions and argues that television and newspapers remain key sources of popular information about religion. They are particularly significant at a time when religious participation in Europe is declining yet the public visibility and influence of religions seems to be increasing. Based on analysis of mainstream media, the book is set in the context of wider debates about the sociology of religion and media representation. The authors draw on research conducted in the 1980s and 2008-10 to examine British media coverage and representation of religion

and contemporary secular values, and to consider what has changed in the last 25 years. Exploring the portrayal of Christianity and public life, Islam and religious diversity, atheism and secularism, and popular beliefs and practices, several media events are also examined in detail: the Papal visit to the UK in 2010 and the ban of the controversial Dutch MP, Geert Wilders, in 2009. Religion is shown to be deeply embedded in the language and images of the press and television, and present in all types of coverage from news and documentaries to entertainment, sports reporting and advertising. A final chapter engages with global debates about religion and media

Welcome to the world of Harmony, where—despite its name, things are anything but—danger lurks just beneath the surface in this new novel by New York Times bestselling author, Jayne Castle. If there’s something Ravenna Chastain knows, it’s when to end things. And after she almost winds up the victim of a cult that believes she’s a witch, it’s easy to walk away from her dead-end career, ready for a new start. But where to find a job that would allow her to use her very specialized skill set? The answer is clear: she becomes a matchmaker. But even a successful matchmaker can’t find someone for everyone, and Ravenna considers Ethan Sweetwater her first professional failure. After nine failed dates, Ravenna knows it’s time to cut Ethan loose. But Ethan refuses to be fired as a client—he needs one final date to a business function. Since Ravenna needs a date herself to a family event, they agree to a deal: she will be his (business) date if he will be her (fake) date to her grandparents’ anniversary celebration. What Ethan fails to mention is that attending the business function is a cover for some industrial espionage that he’s doing as a favor to the new Illusion Town Guild boss. Ravenna is happy to help, but their relationship gets even more complicated when things heat up—the chemistry between them is explosive, as explosive as the danger that’s stalking Ravenna. Lucky for her, Ethan isn’t just an engineer—he’s also a Sweetwater, and Sweetwaters are known for hunting down monsters...
